

# YACHT TRANS LINES

**AT** Yacht Trans Lines we are more than a shipping company! We are a full service provider, with the possibility to arrange a 'door to door' solution, if needed, to transport and deliver your yacht!

Our fully qualified captains and staff can deliver your yacht from the marina, driving the boat to the load port, pre co-ordinate with port operations, arrange and supervise the loading operation, safely secure the yachts for the ocean passage and

upon arrival, the boat can be delivered to your marina, if needed.

Needless to mention, that all export and import procedures are taken care of with our own customs staff, to insure smooth handling of all documentation issues.

We can transport all sizes of boats, from small units, able to be fitted into a container up to supercargo yachts and project cargo's, in excess of 200 tons of weight!

In short, we aim to go all the way, so that your yacht and cargo is in safe hands!

Since 2007 we have our own warehouse and workshop inside Jebel Ali Free Zone, right next to the port with over 800 qm of space and can now easily

adjust to all loading and packaging requirements for project and oversized cargo's and have all necessary equipment readily available for all loading, stuffing and shifting operations, as well as a complete equipped fabrication workshop for minor and major steel and cargo fabrication jobs, along with the ability to support all lashing and sea fastening services!

We have our own yacht cradle transport system, which secure and hold your yacht in place, once the yacht is loaded onto the ship. Our cradles are engineered for securing yachts up to 100 tons in weight and safely support yachts up to all sizes, as the system can be expanded to unlimited length and weight! Once underway, these high strength cradles hold their charge in every sea
