

and can be shipped to and from every load port worldwide in standard containers and are able to be adjusted to every hull shape!

We are able to provide our yacht shipping cradles for boats, and also all lashing and securing material is avail

able for safely transport all yachts for worldwide yacht transports and project cargo!

Since last year, after being four years in operation, we expanded our presence and have opened last year an additional office in Spain to gain market access additionally in Europe.

In a joint venture, we have opened in March 2008 a new office in Ajman, inside Gulf Craft Headquarters, to serve clients on a more direct level, and are able to quickly arrange all transport solutions!

As well to have quicker access to other boat builders, which are mainly located in the northern Emirates!

We work with over 50 shipping lines, mainly handling yachts and out of gauge and project cargoes and have developed from a small company to a full service provider, in recent years, with the aim of further expansion in the coming years!

We are able to provide cargo insurance for any type of yacht and cargo to be shipped and can also provide full services for any required maintenance and will establish soon a yacht service division, in a joint venture agreement with another local company, to be able to support the Persian Gulf Yachting community!

We look forward to your transport enquiries!
